These people had been given a legal right to demolish houses in the Woodlands as part of plans to build a community of high density, mixed-use towers. Many people opposed the plan because they saw it as being built on a rubbish site and a dangerous waste dump area. They were opposed because they did not think they should have to live on a rubbish dump with nothing to call their own or take care of themselves.. Grace also claims to have witnessed her then-13-year-old step-grandfather shoot her daughter's dog, "Horse." Then, two people came to her home and raped her, the family says.

They were not simply put up for auction – we know of four people who did this, which amounts to an appalling loss of time, energy, and money to be paid for through public funds. One man, now deceased, and his family were forced to flee the land as a result of this process.
